WIRELINE COMPETITION BUREAU DIRECTS USAC TO FULLY FUND ELIGIBLE CATEGORY ONE AND CATEGORY TWO E-RATE REQUESTS

CC Docket No. 02-6

In this notice, the Wireline Competition Bureau announces that there is sufficient funding available to fully meet the Universal Service Administrative Company's (USAC) estimated demand for category one and category two requests for E-rate supported services for funding year 2017.¹

On May 17, 2017, USAC submitted an estimate of demand for the E-rate program for funding year 2017.² It estimates that the total demand for funding year 2017 will be \$3.20 billion, which includes estimated demand for category one services of \$2.296 billion and of \$904 million for category two services.³

Recently, the Wireline Competition Bureau announced that the E-rate program funding cap for funding year 2017 is \$3.99 billion.⁴ Additionally, according to USAC projections, \$1.2 billion in unused funds is available for use in E-rate funding year 2017.⁵

The Chief of the Wireline Competition Bureau is delegated authority to determine the proportion of unused funds needed to meet category one demand and to direct USAC to use any remaining funds to provide category two support.⁶ In light of the current funding cap of \$3.99 billion and available carry forward funding of \$1.2 billion, there is sufficient funding to fully fund all category one and category two funding requests. We therefore direct USAC to fully fund eligible category one and category two

¹ The 2017 funding year runs from July 1, 2017 to June 30, 2018. The E-rate program is more formally known as the schools and libraries universal service support program.
